

Top Summary Plots

(November 2016 LHCtopWG open meeting)

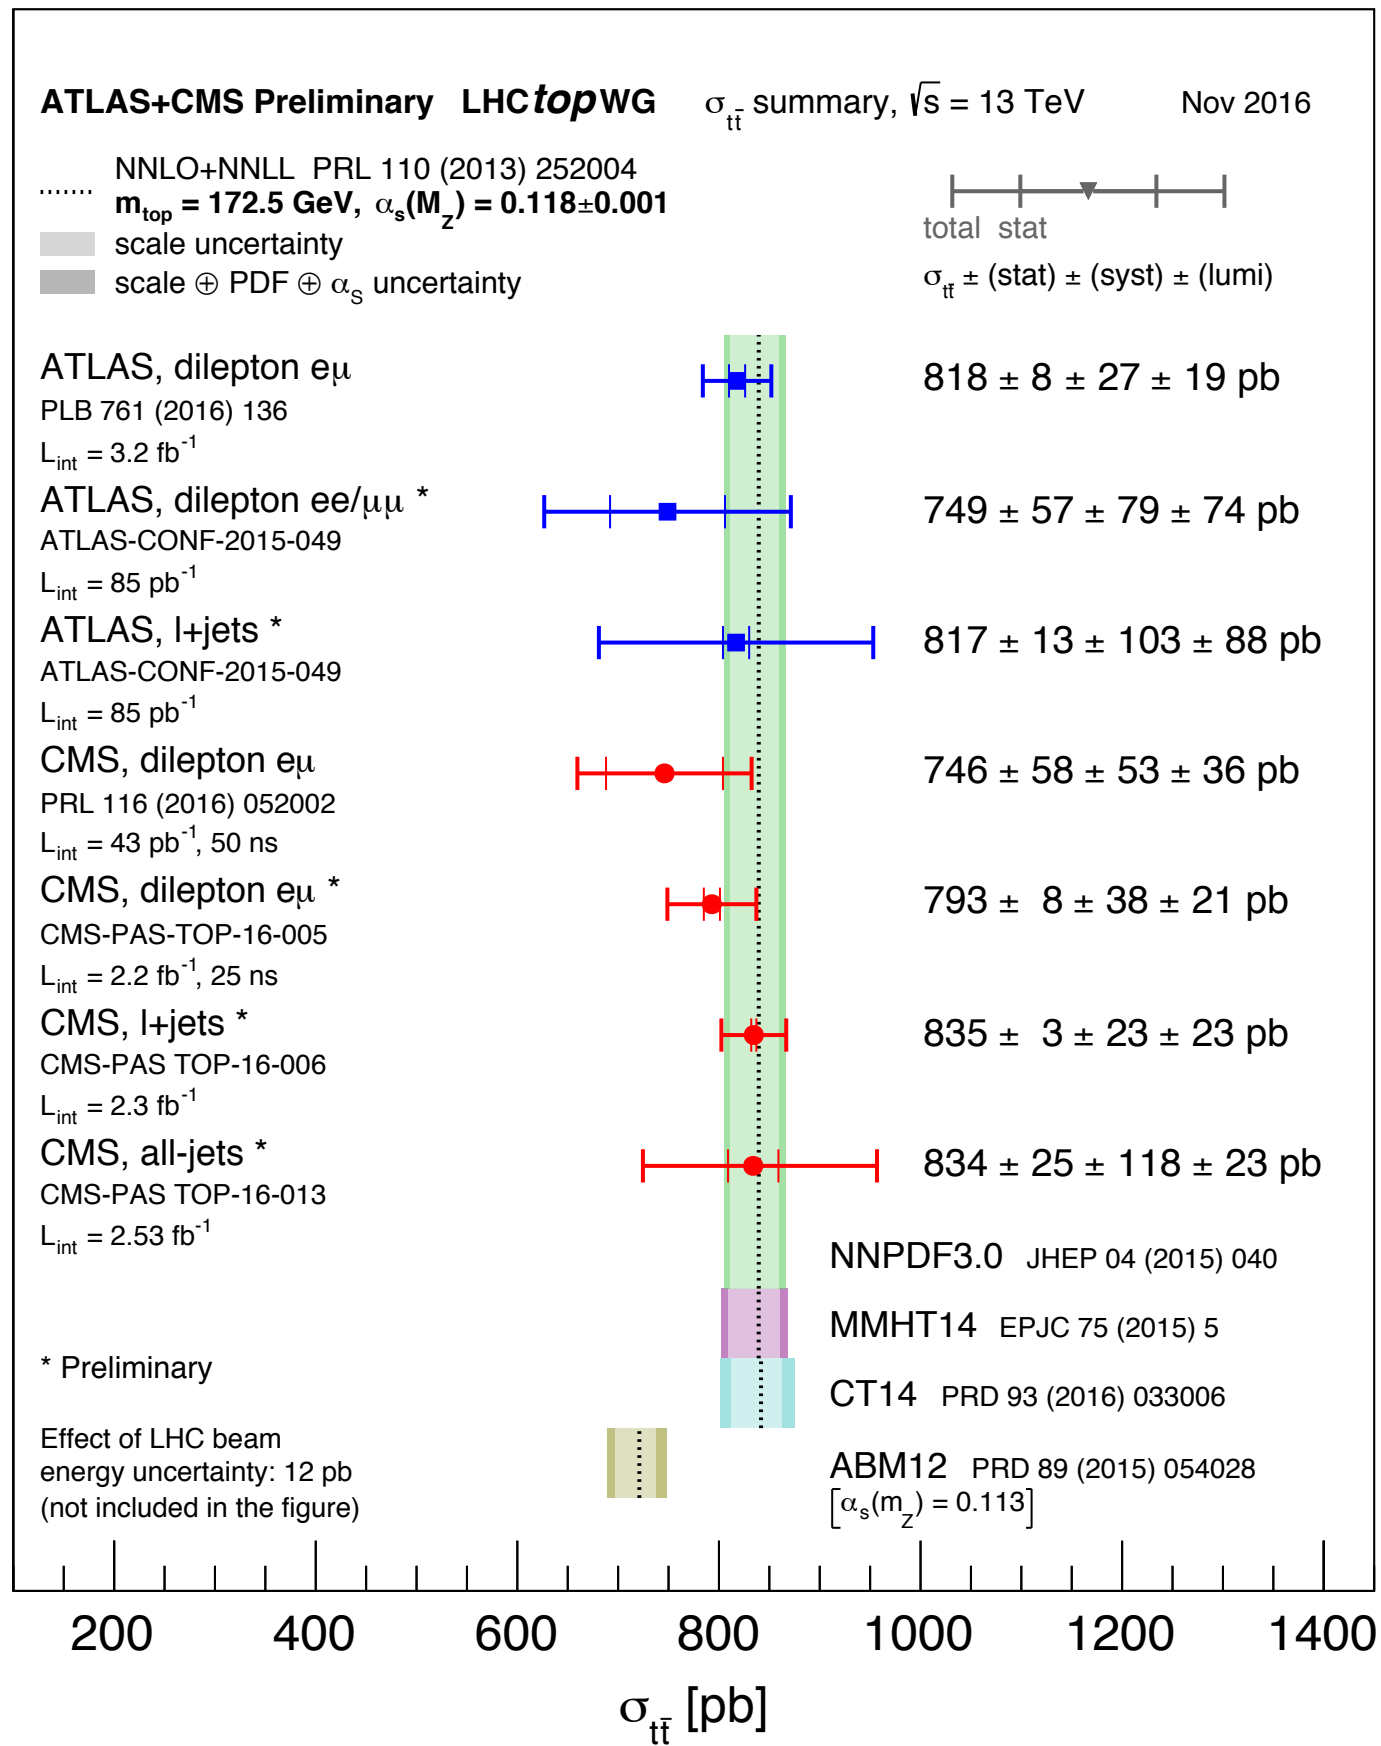

Barbara Alvarez Gonzalez, Juan Pedro Araque,
Nuno Castro, Frederic Deliot, Alison Lister, Reinhard Schwienhorst,
Francesco Spano, Filipe Veloso
November 2016

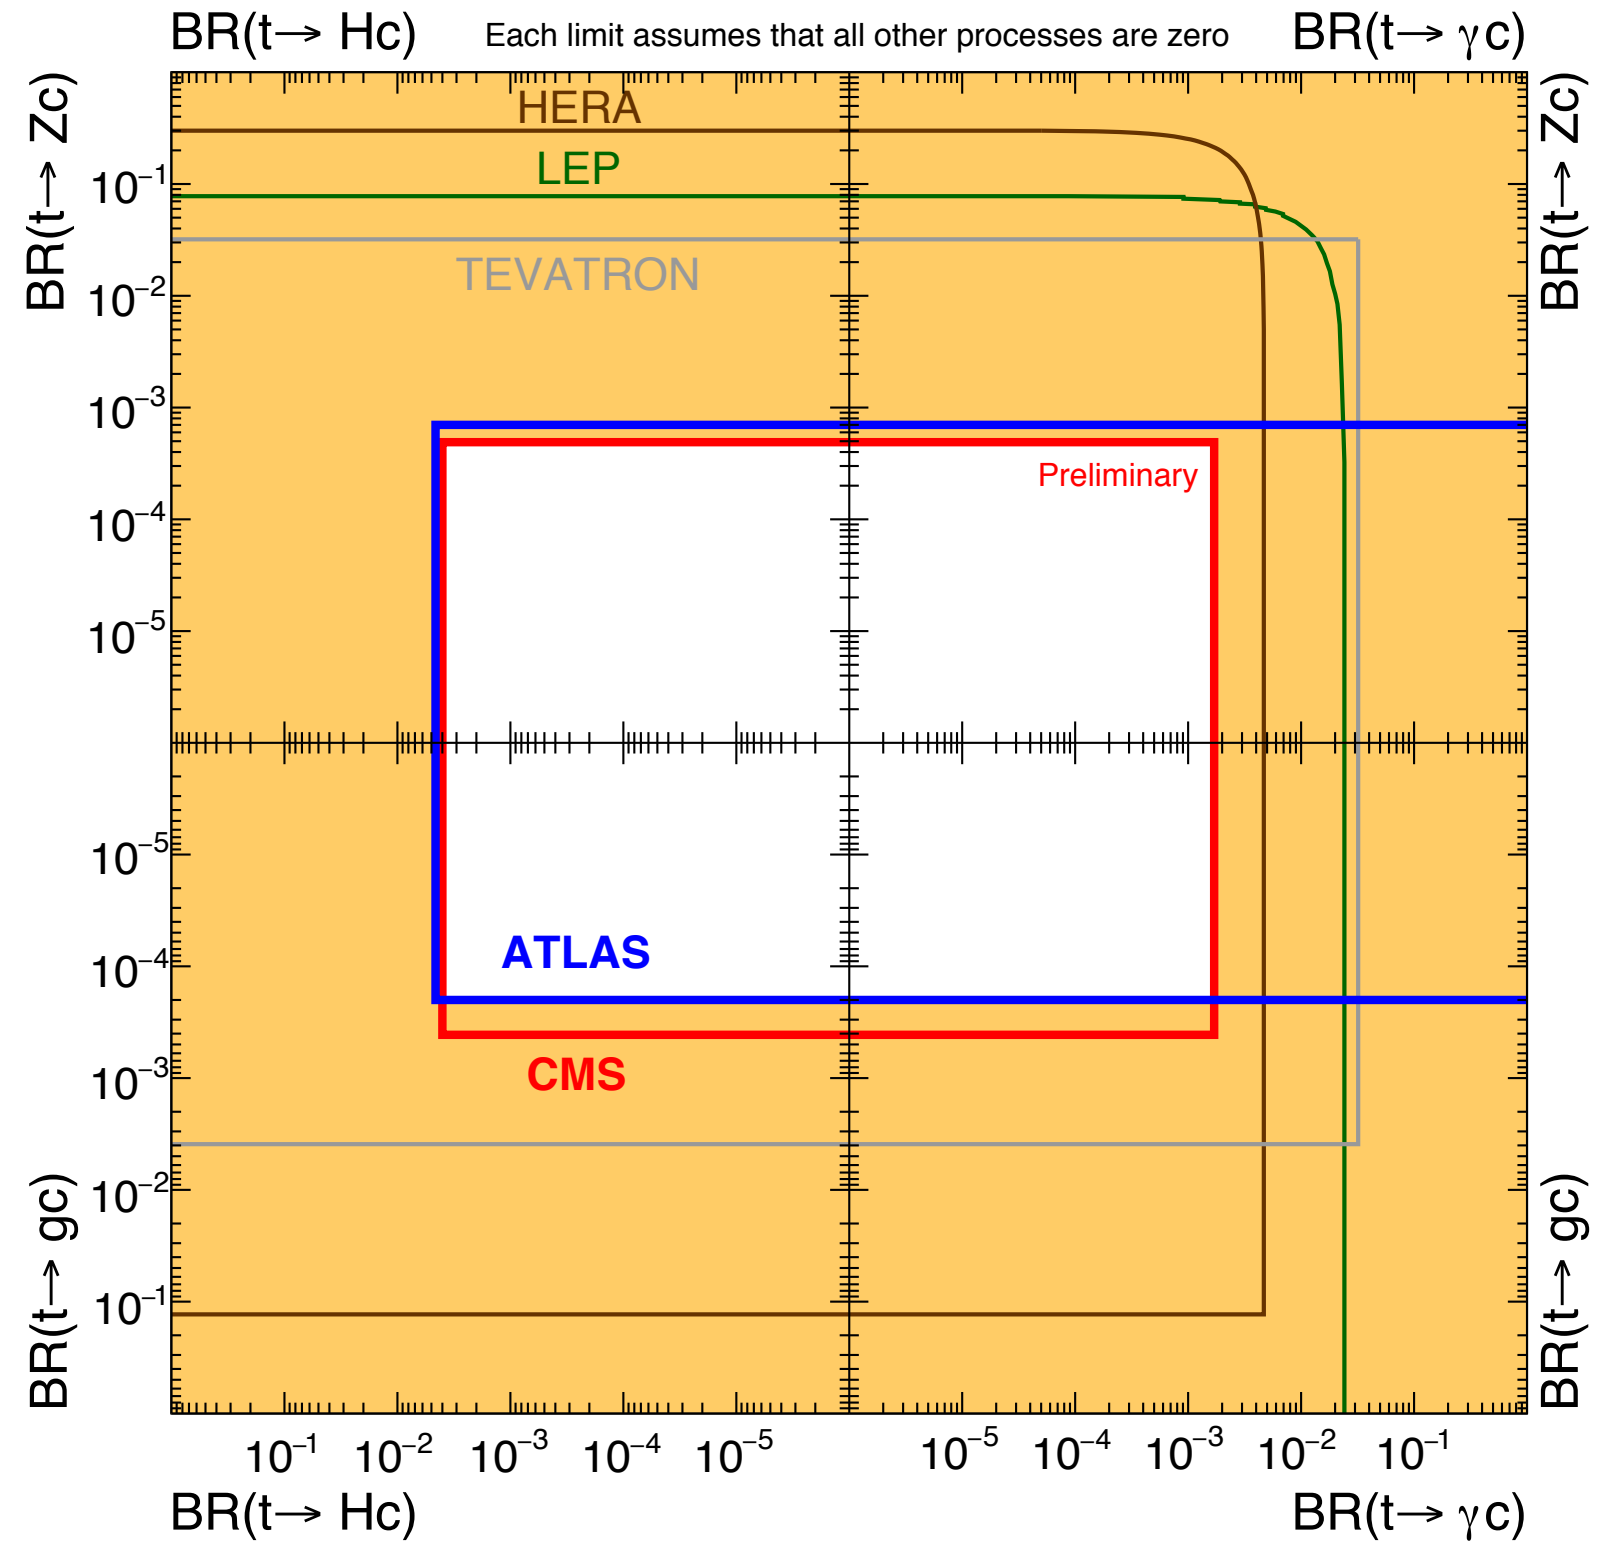

- updated wrt previous version: arXiv number for the 13 TeV CMS t-channel result

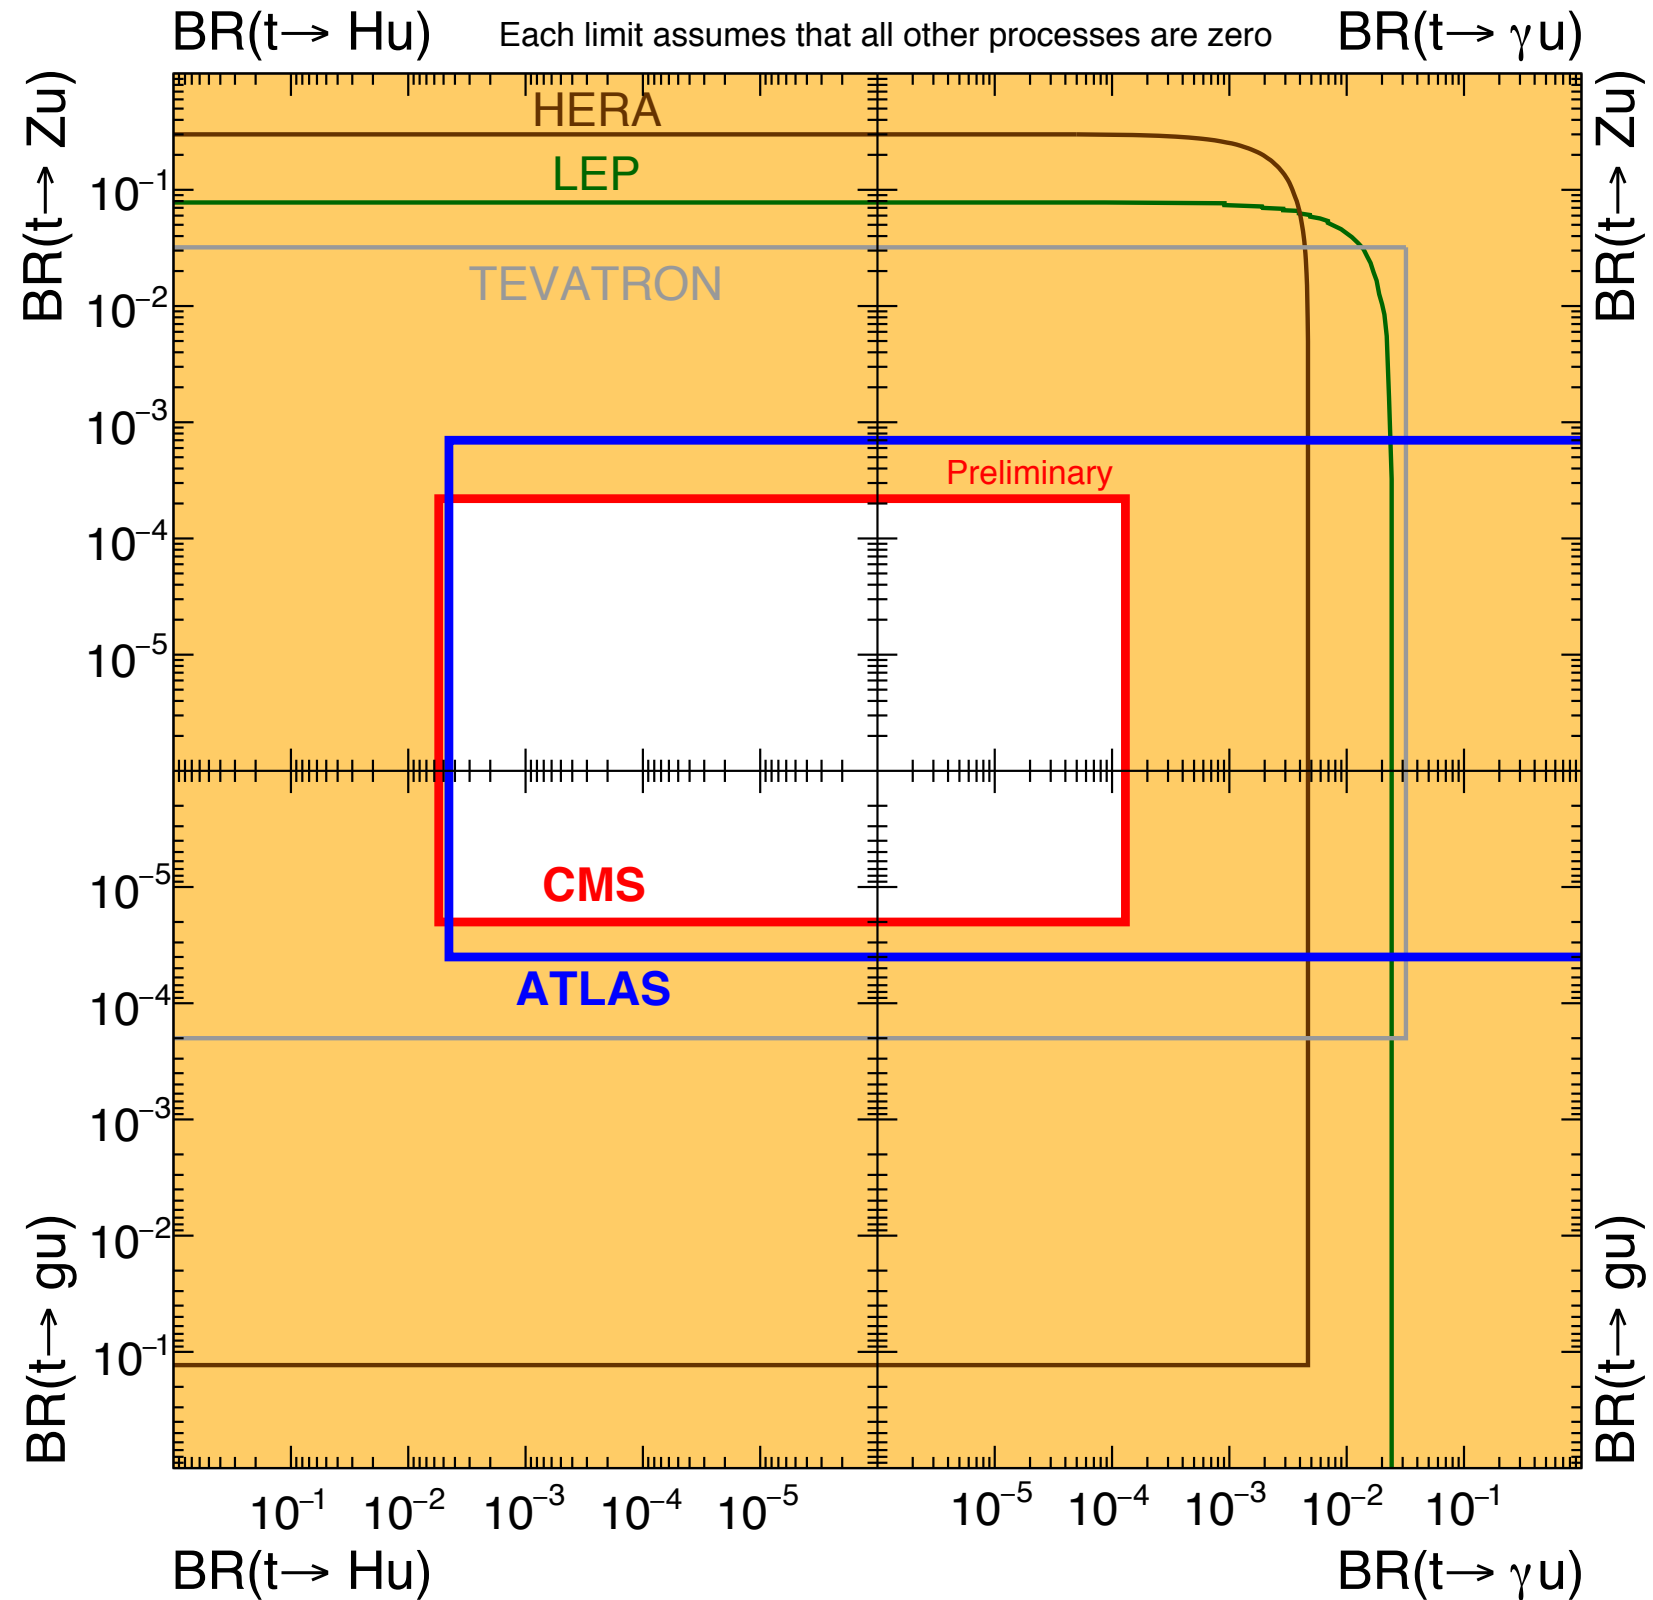

- updated wrt previous version: arXiv number for the 13 TeV CMS t-channel result

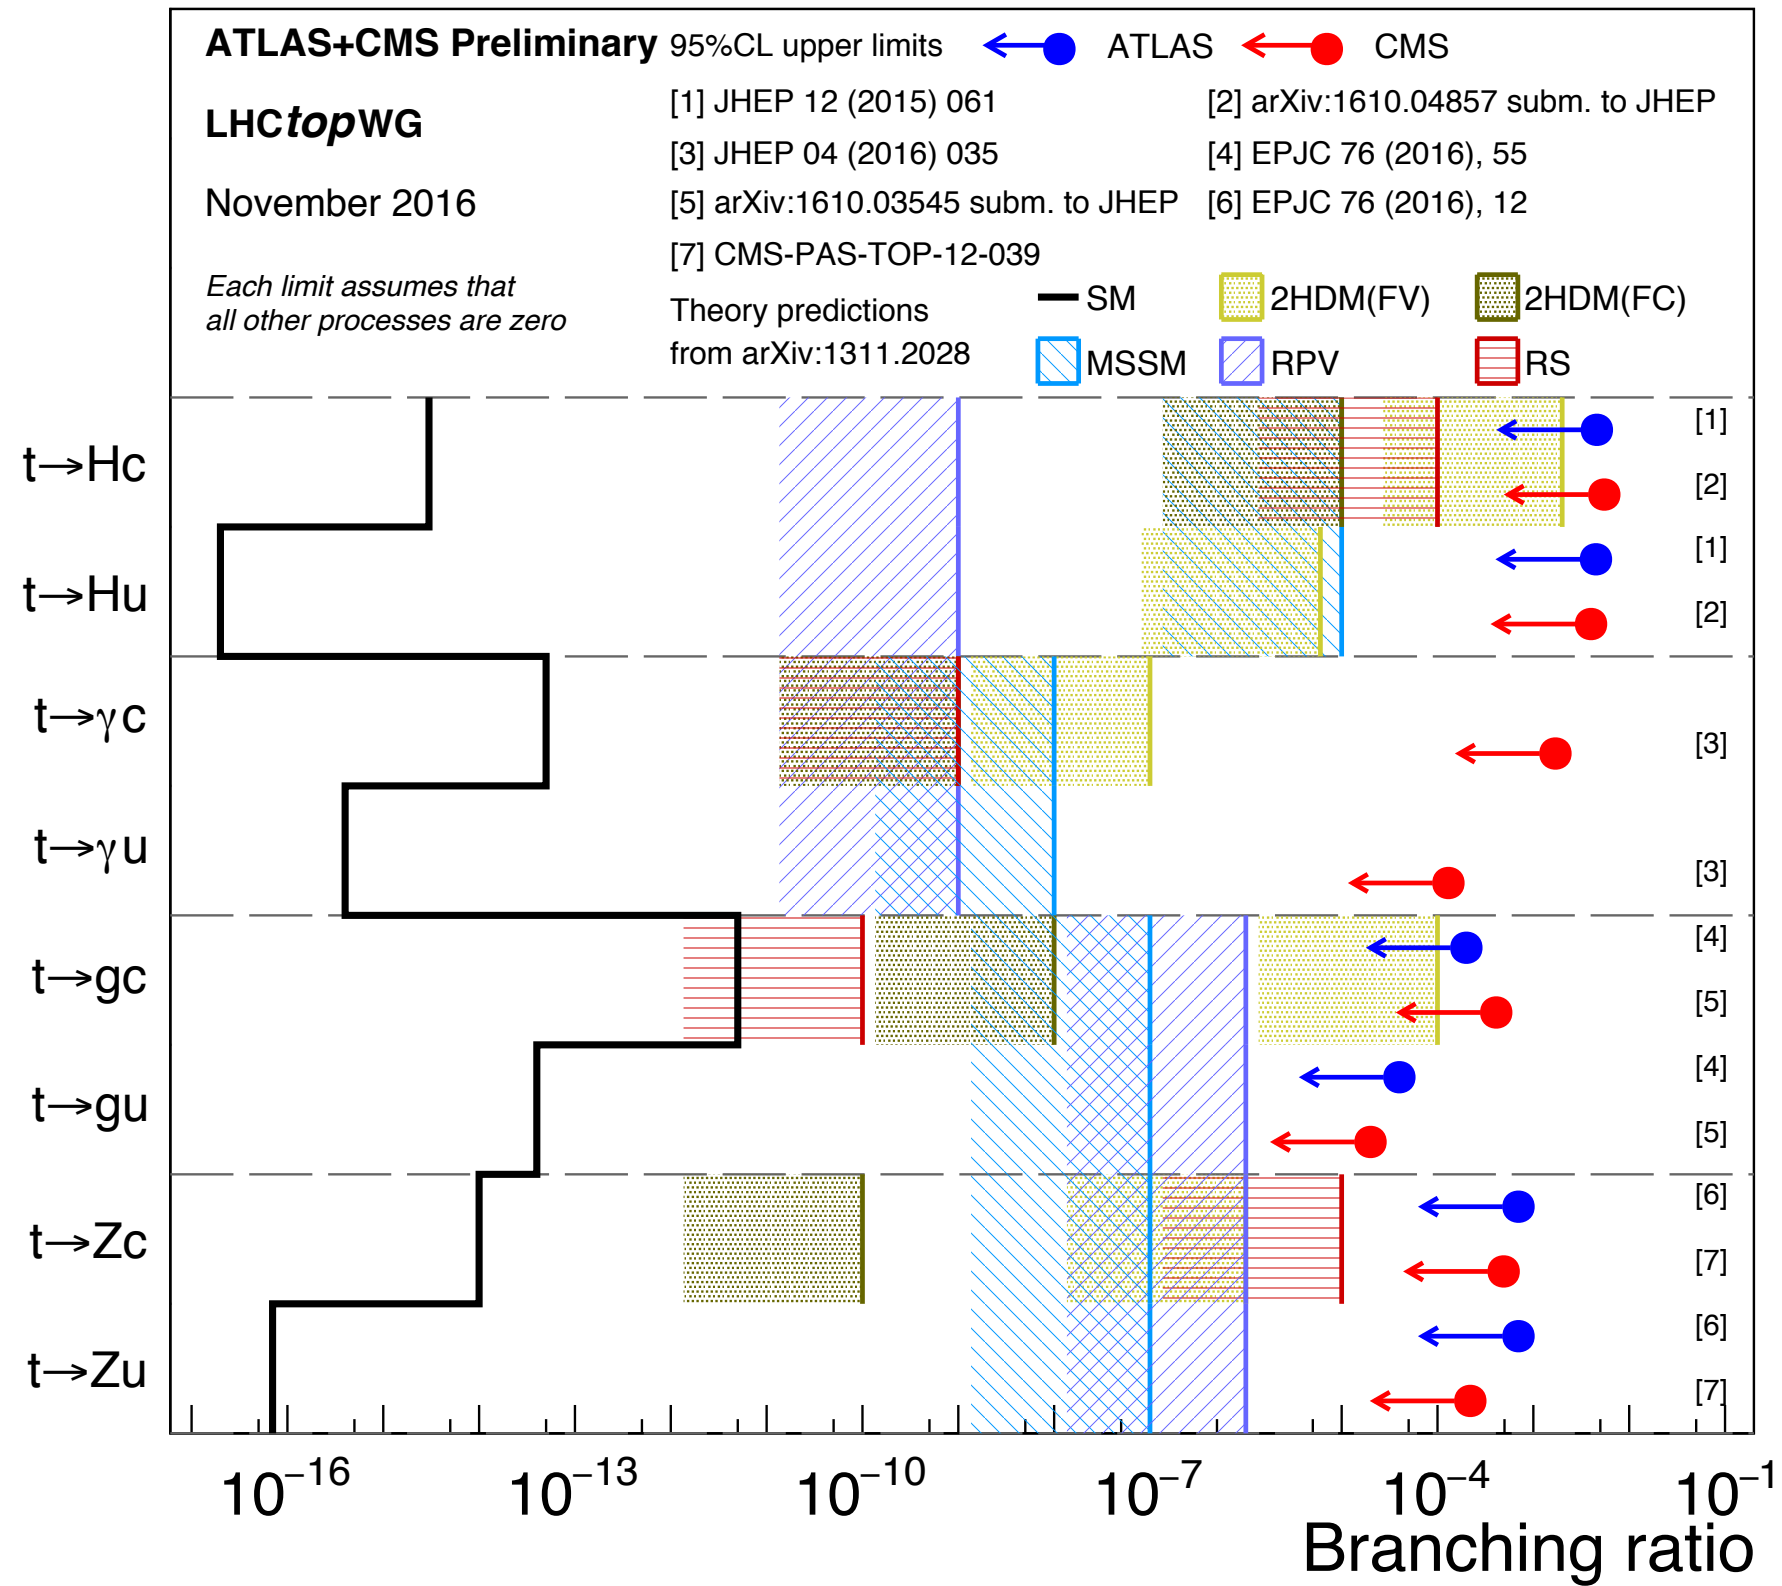

- updated wrt previous version: emu ATLAS journal reference

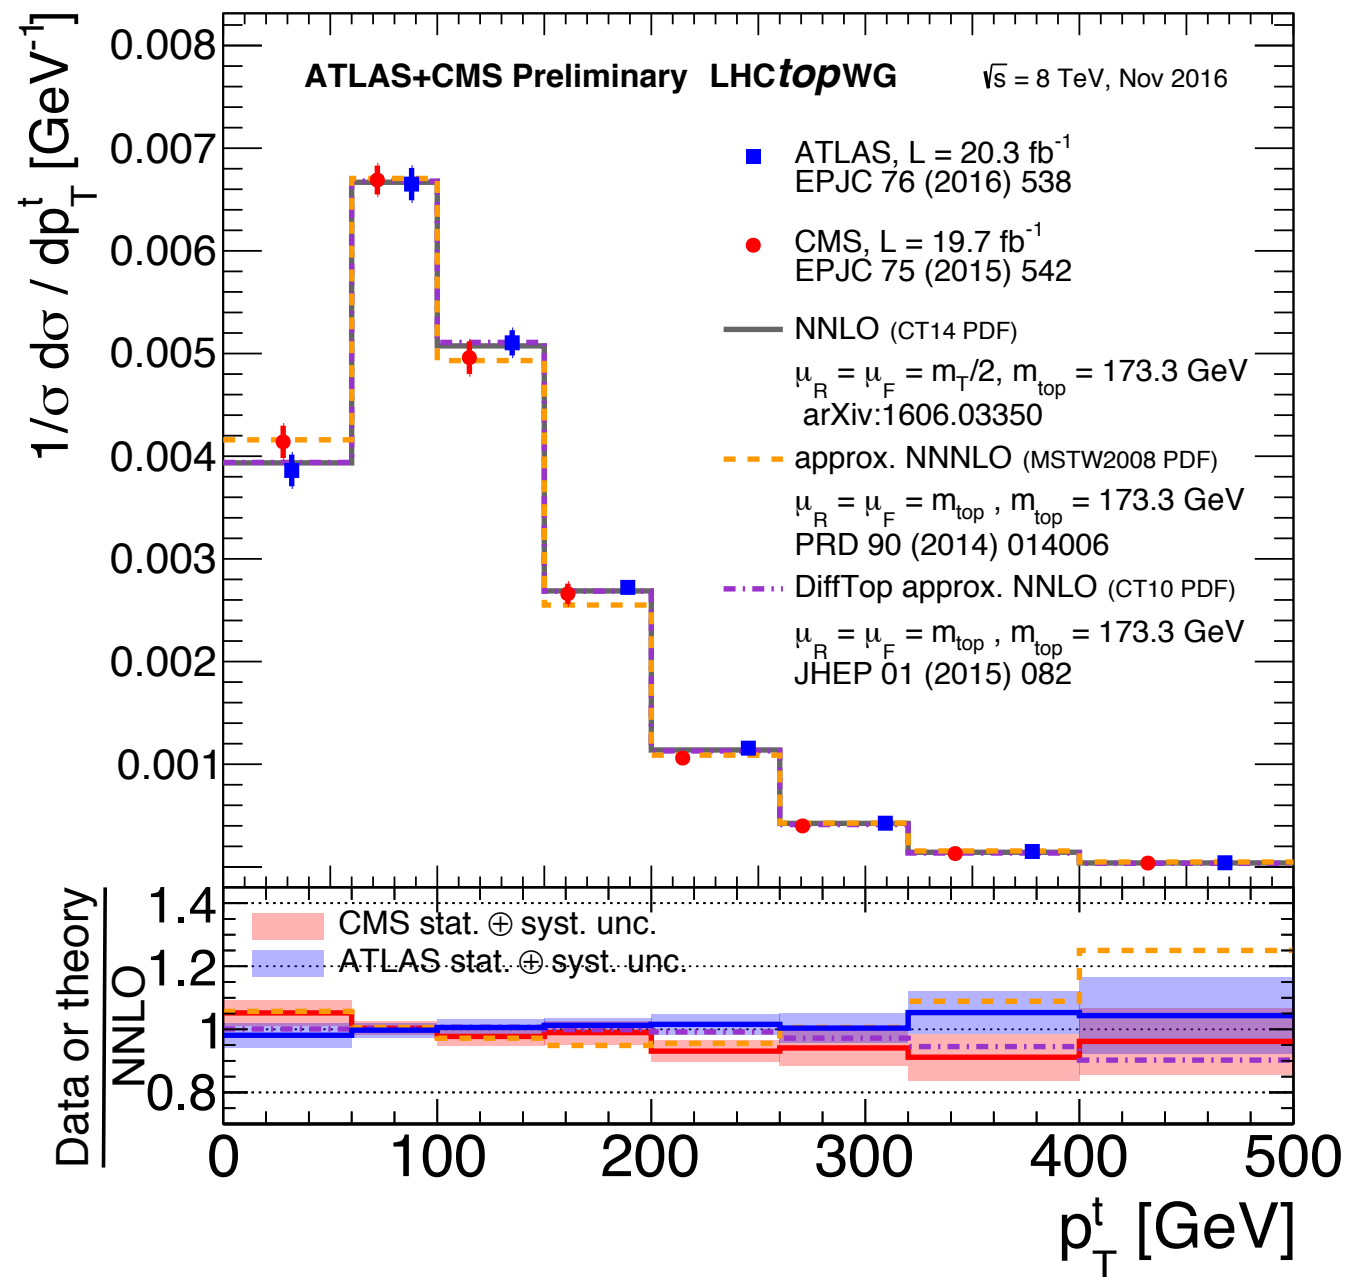

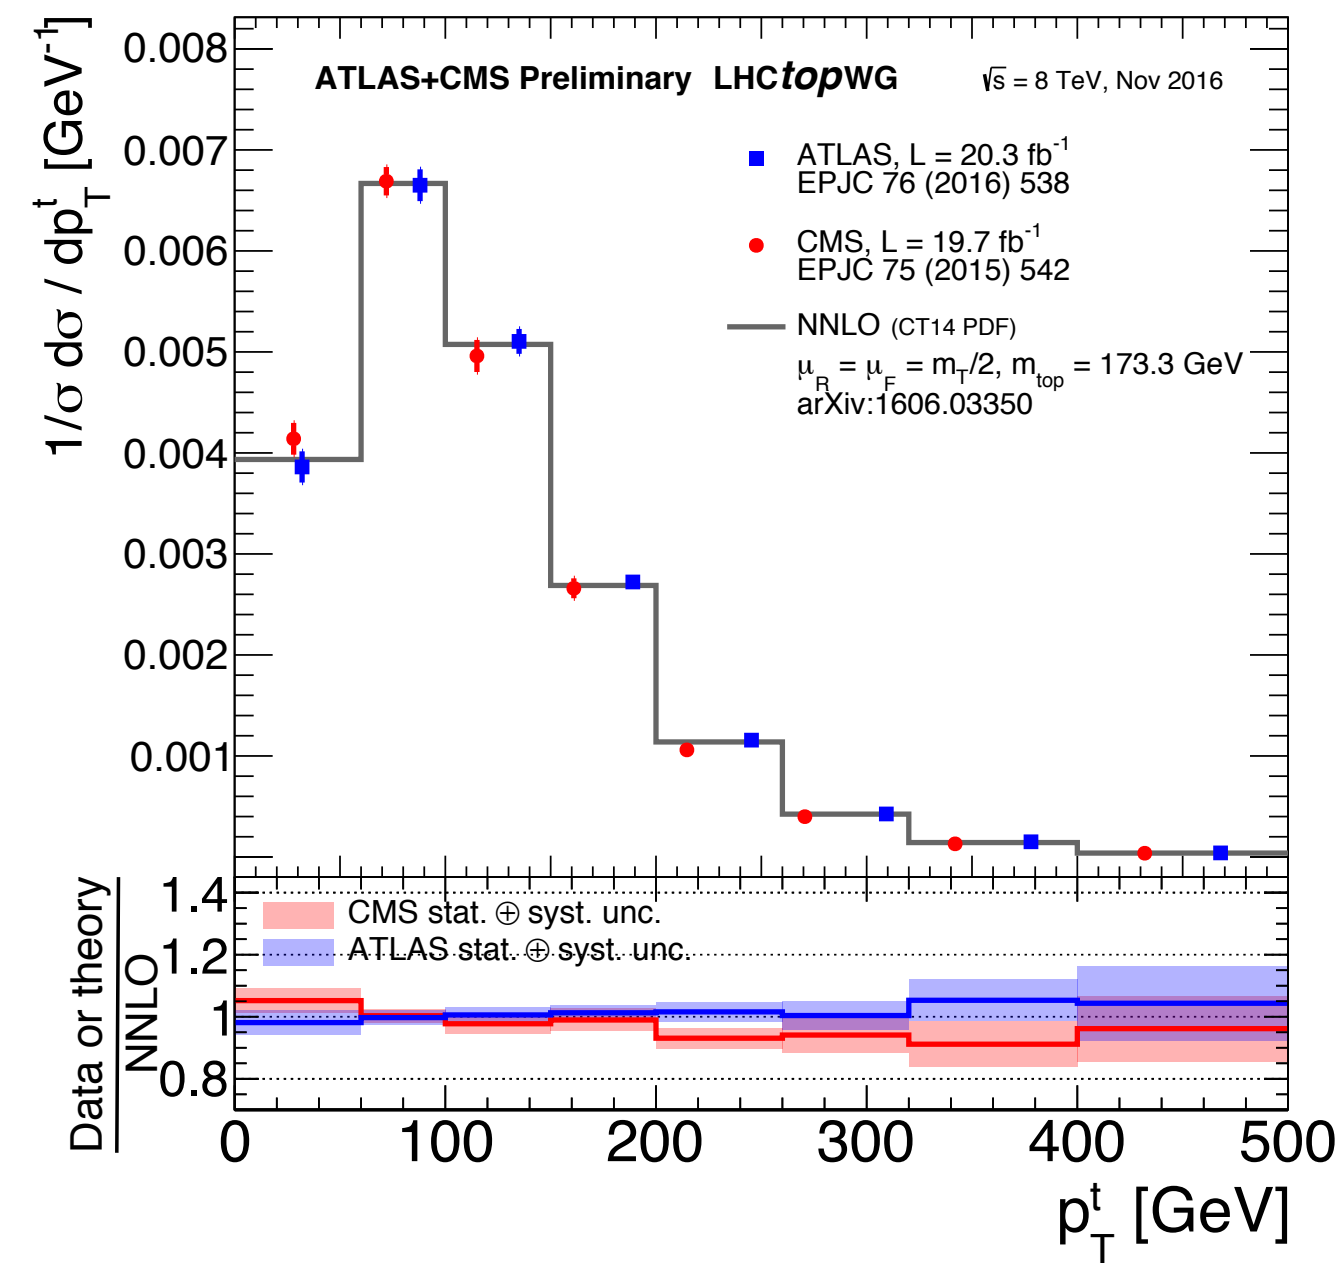

- updated wrt previous version: update with the latest Atlas and CMS limits

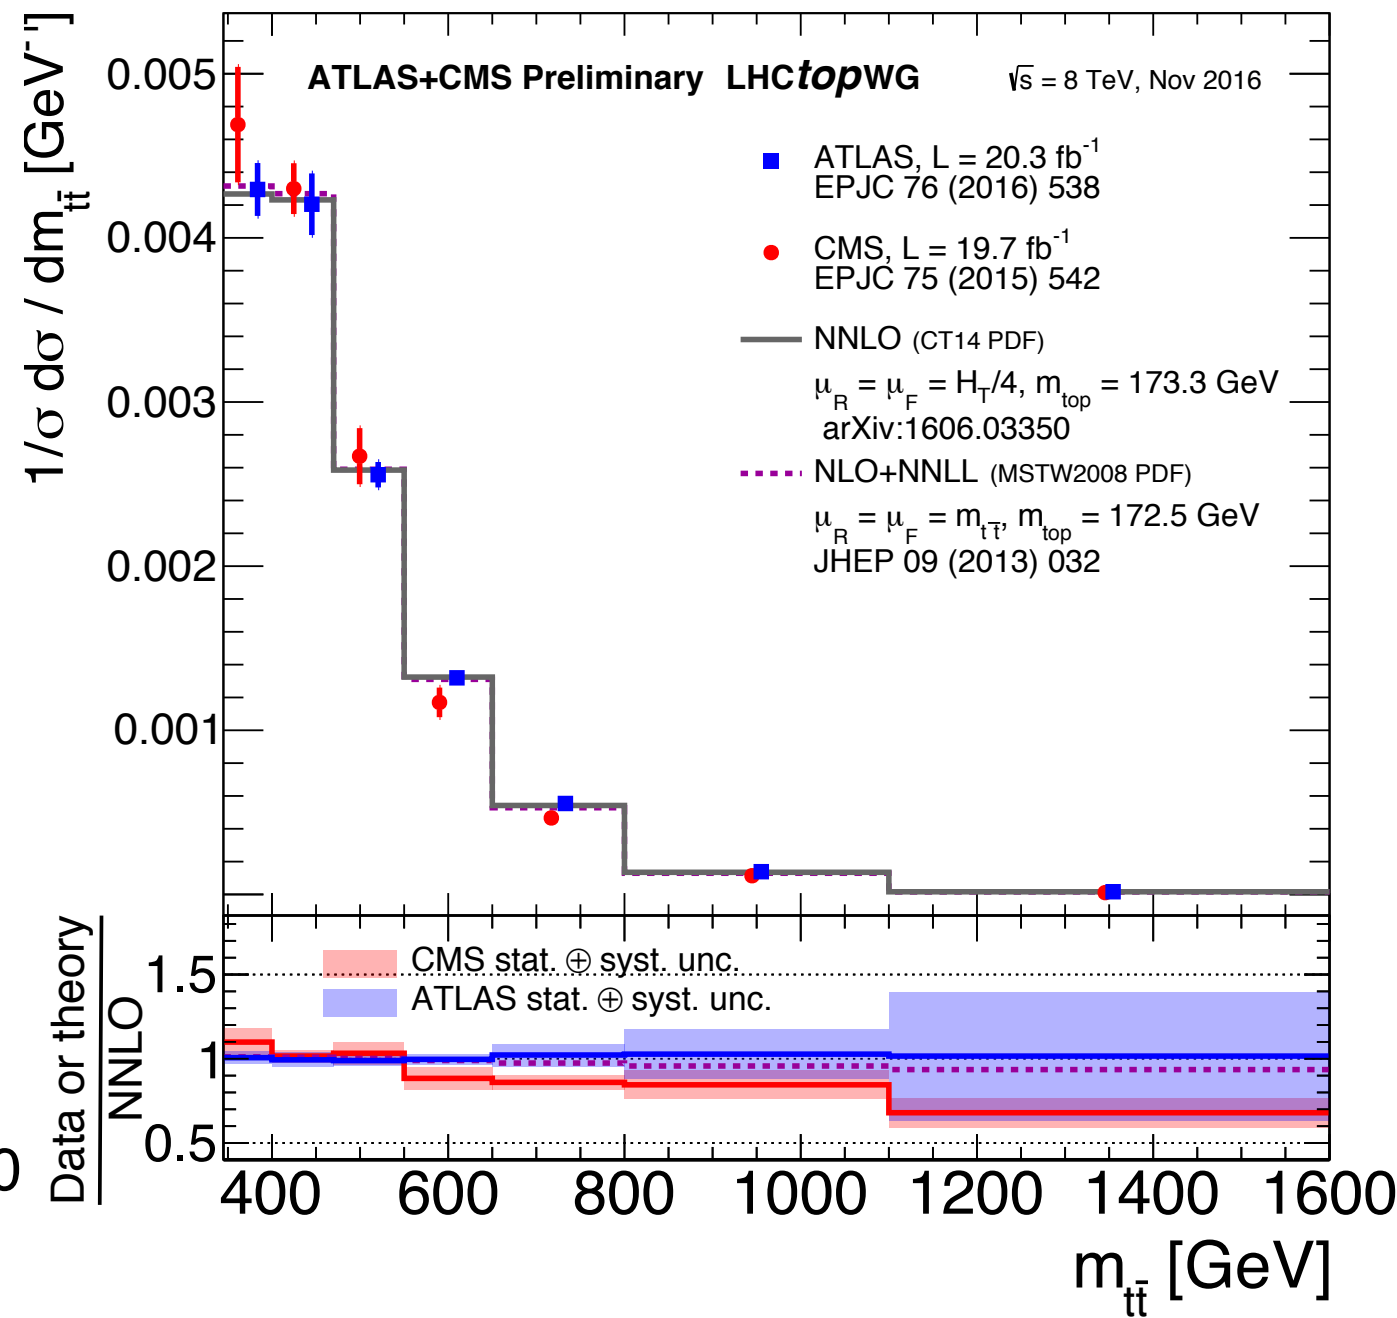

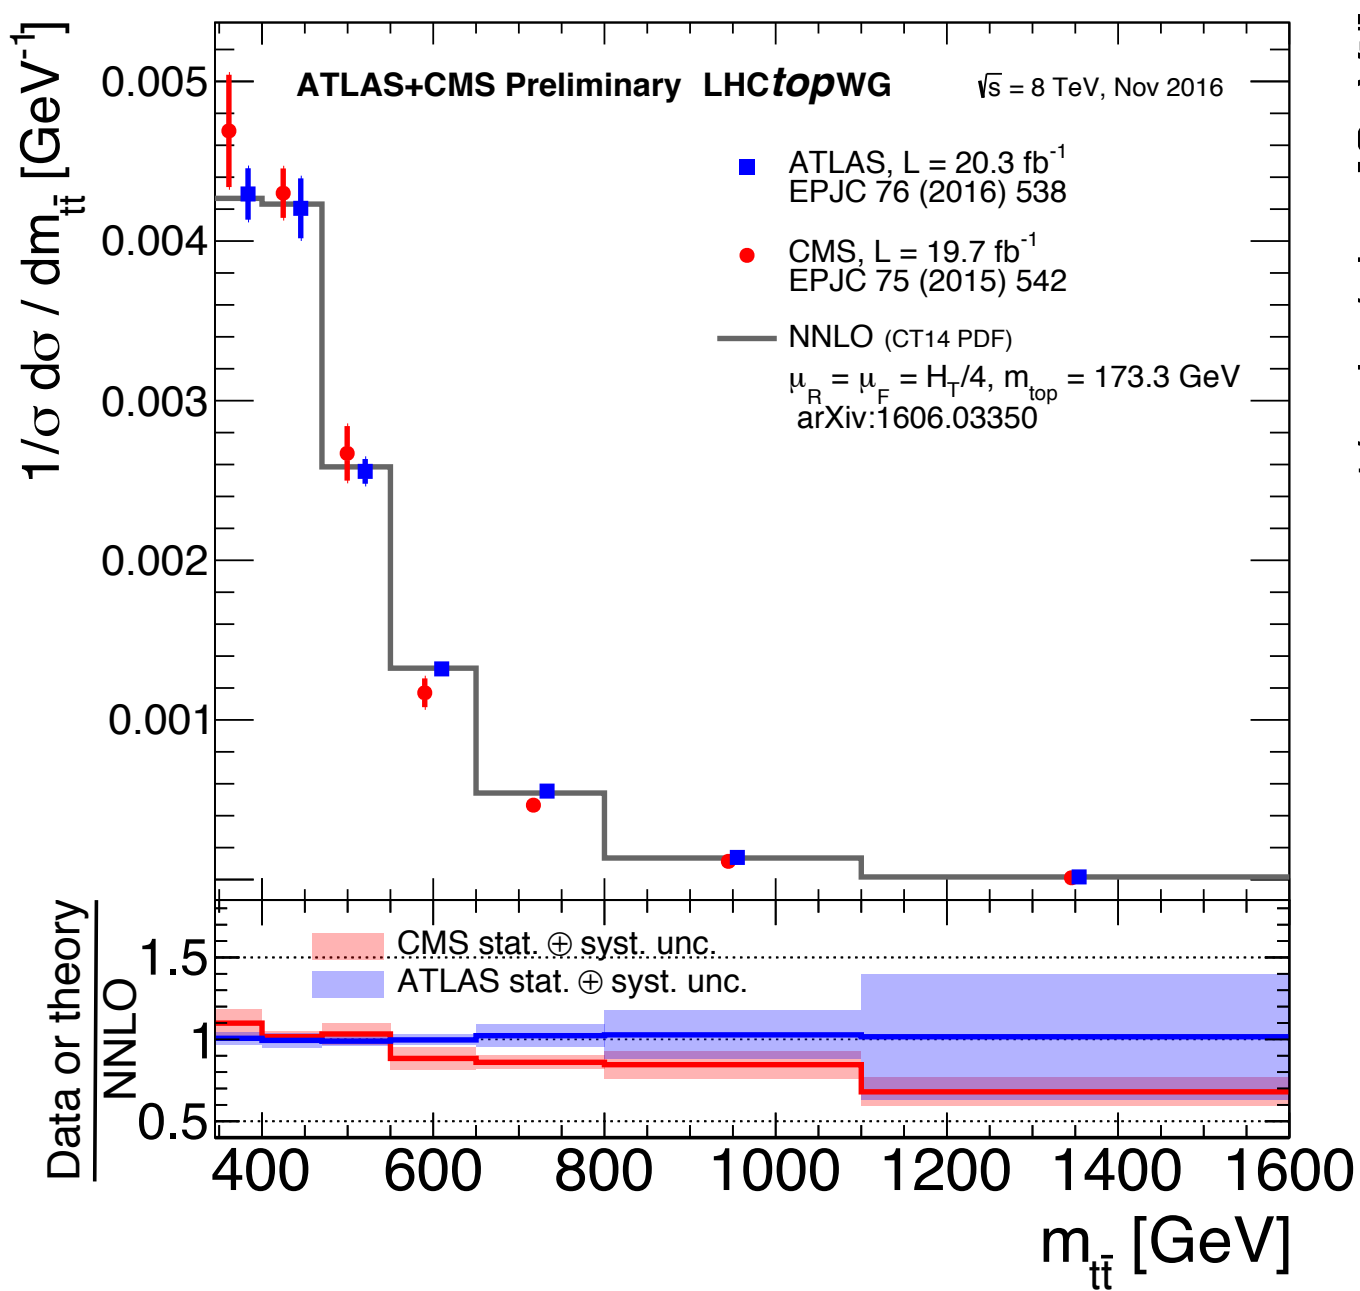

- updated wrt previous version: update with the latest Atlas and CMS limits

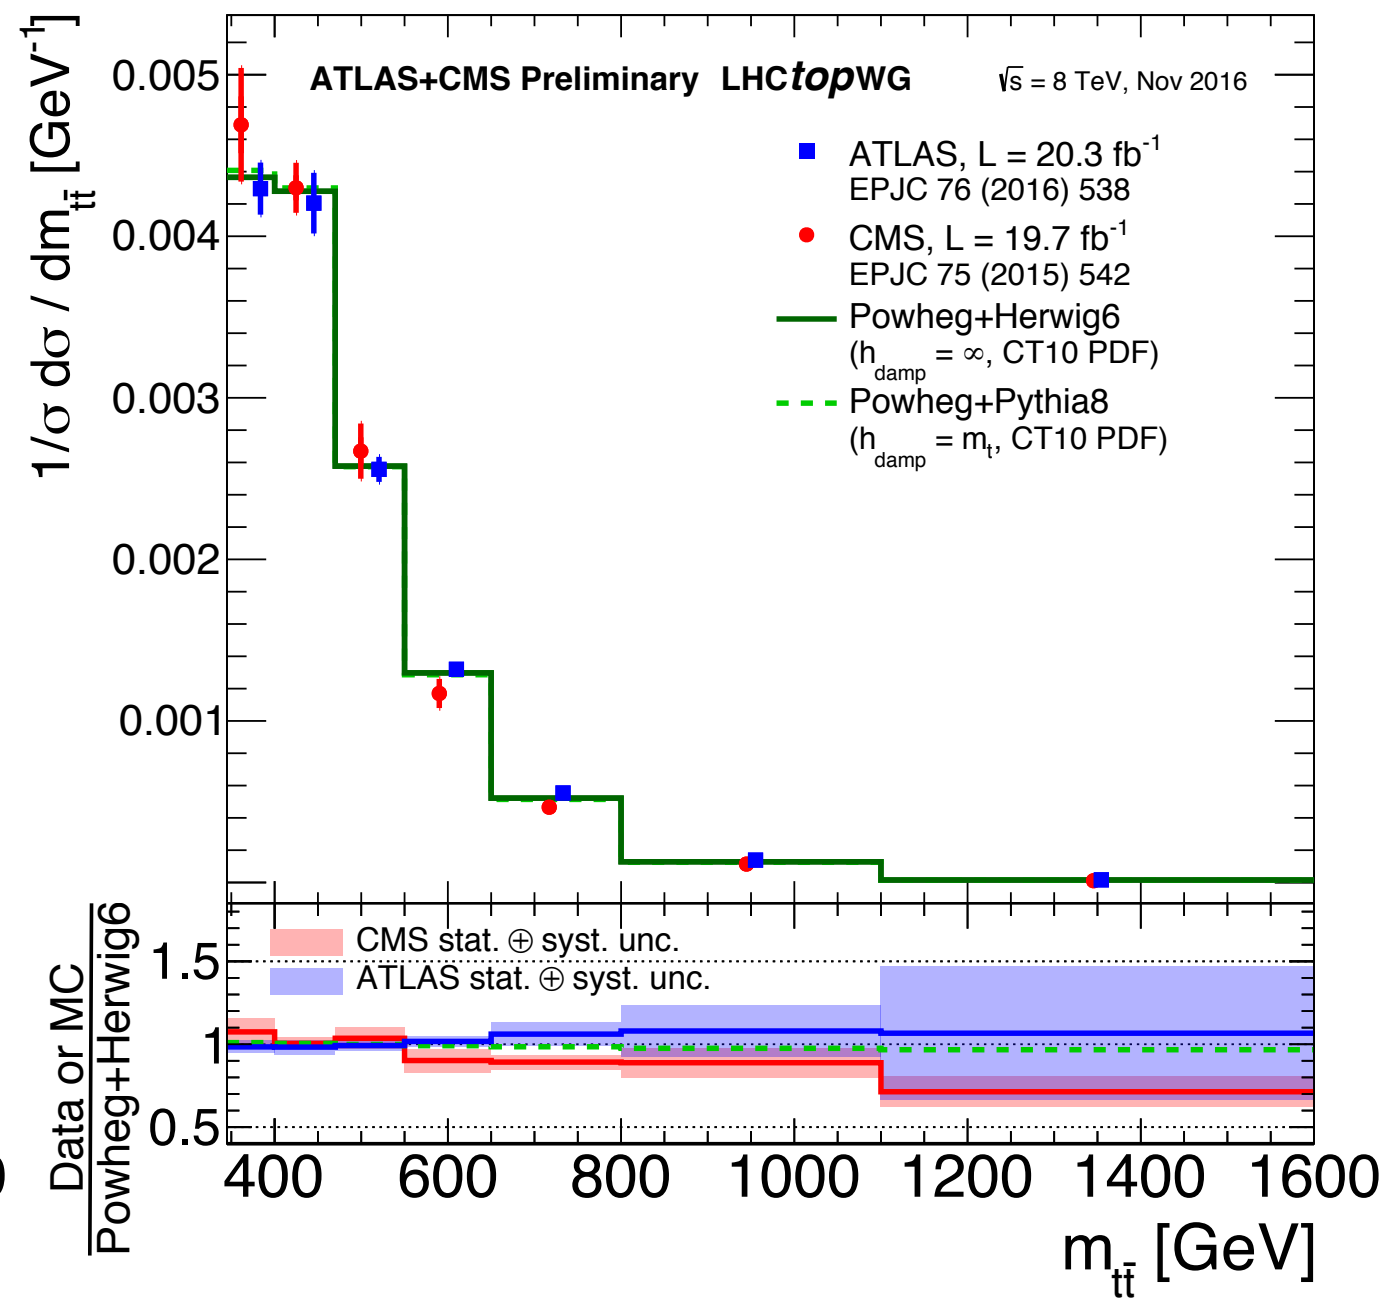

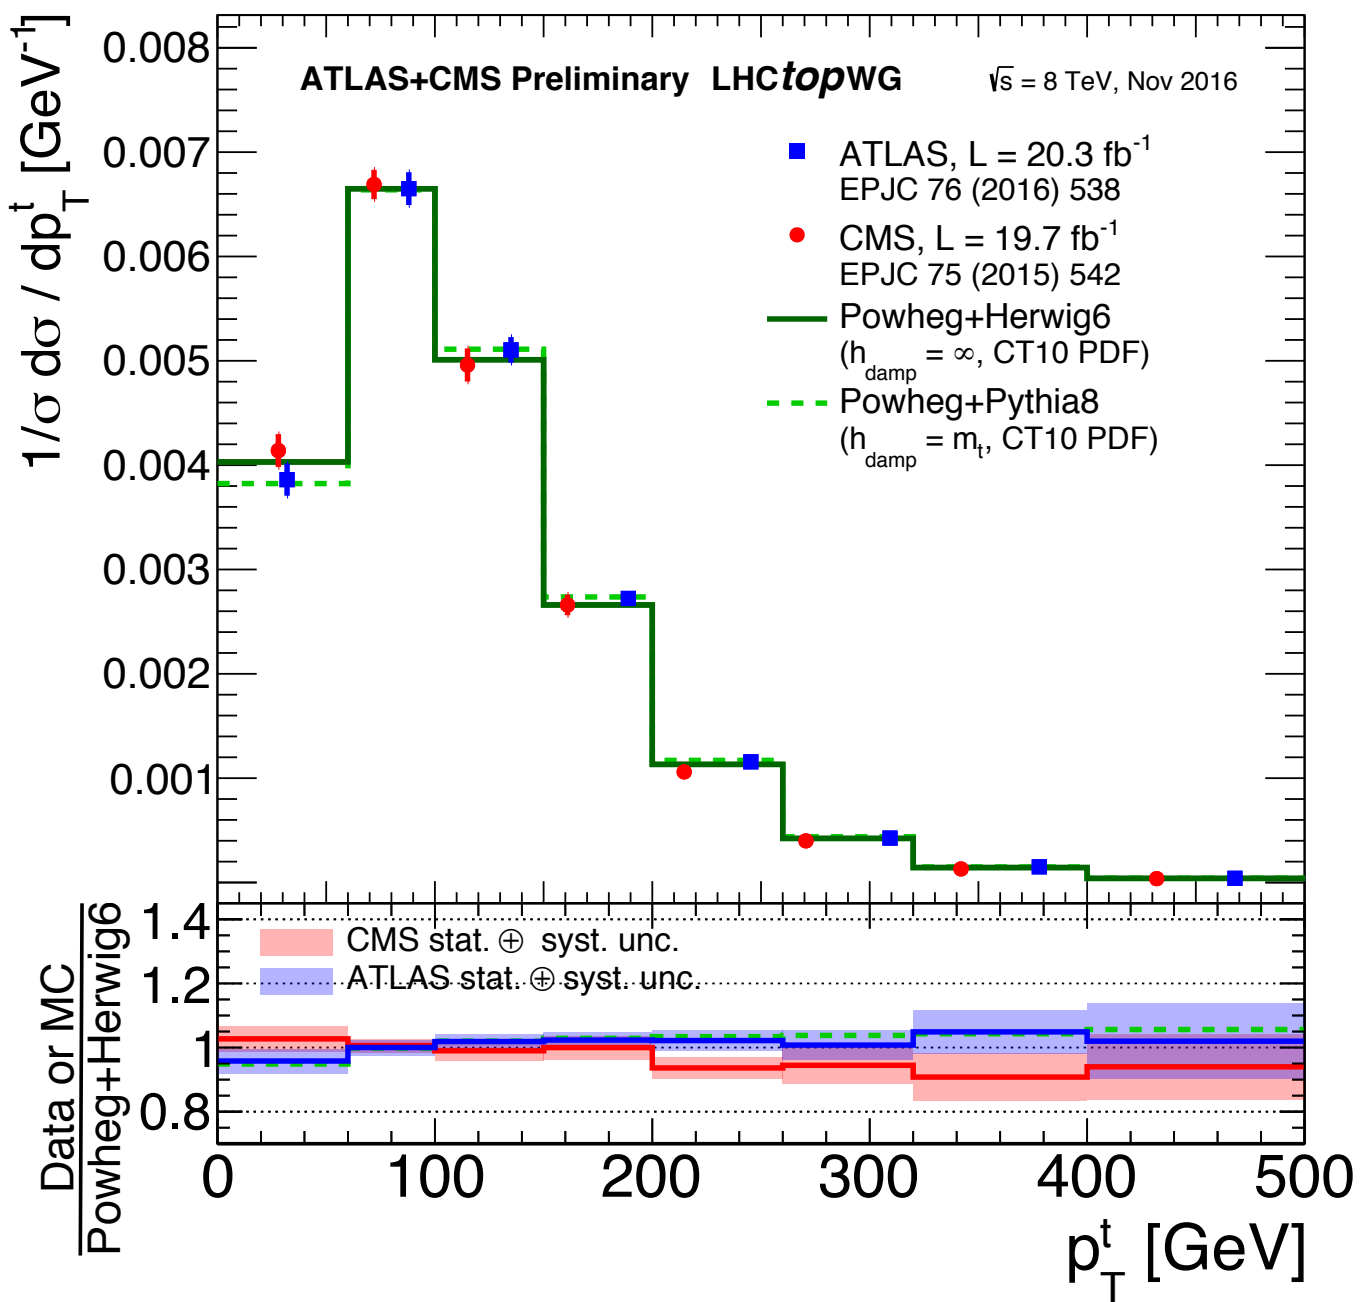

- New plot: Summary of FCNC upper limits at the 95% CL from ATLAS and CMS searches at 8 TeV

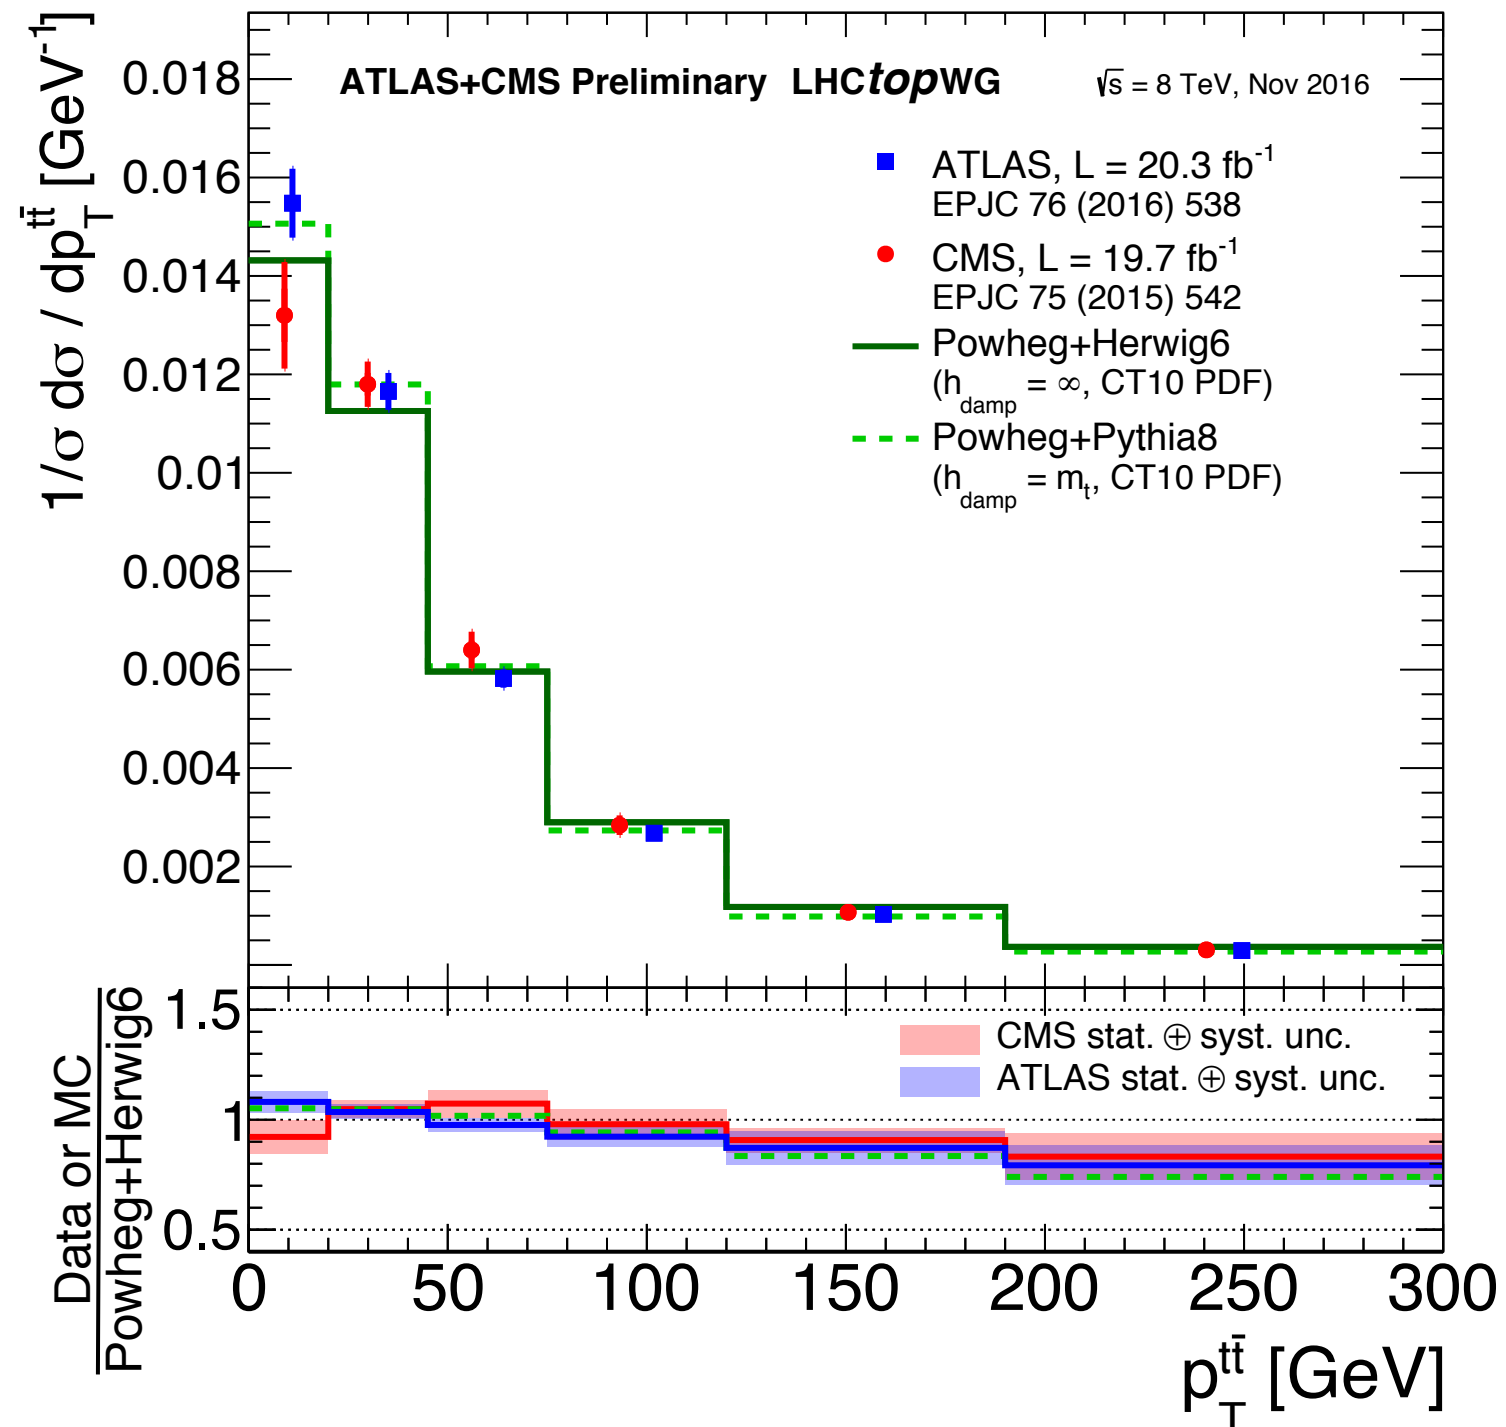

- updated wrt previous version: include the latest NNLO predictions with dynamic scales from Mitov et al. (arXiv:arXiv:1606.03350) and the updated references for the published ATLAS and CMS data

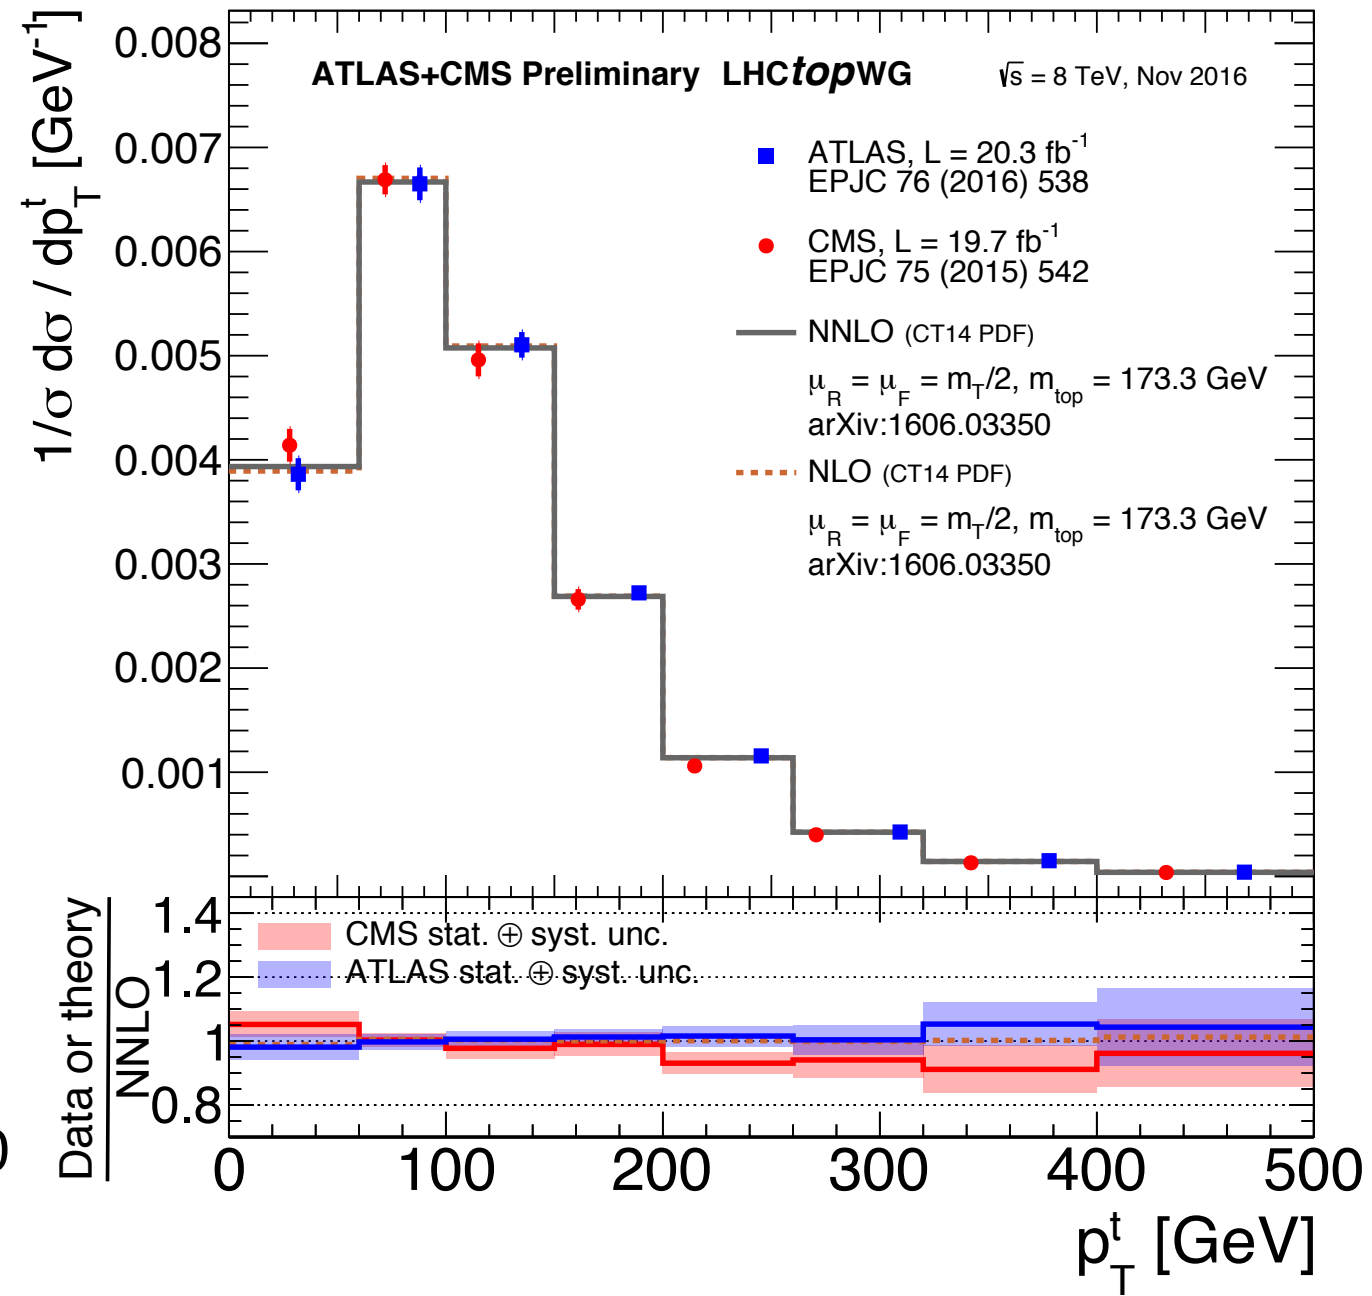

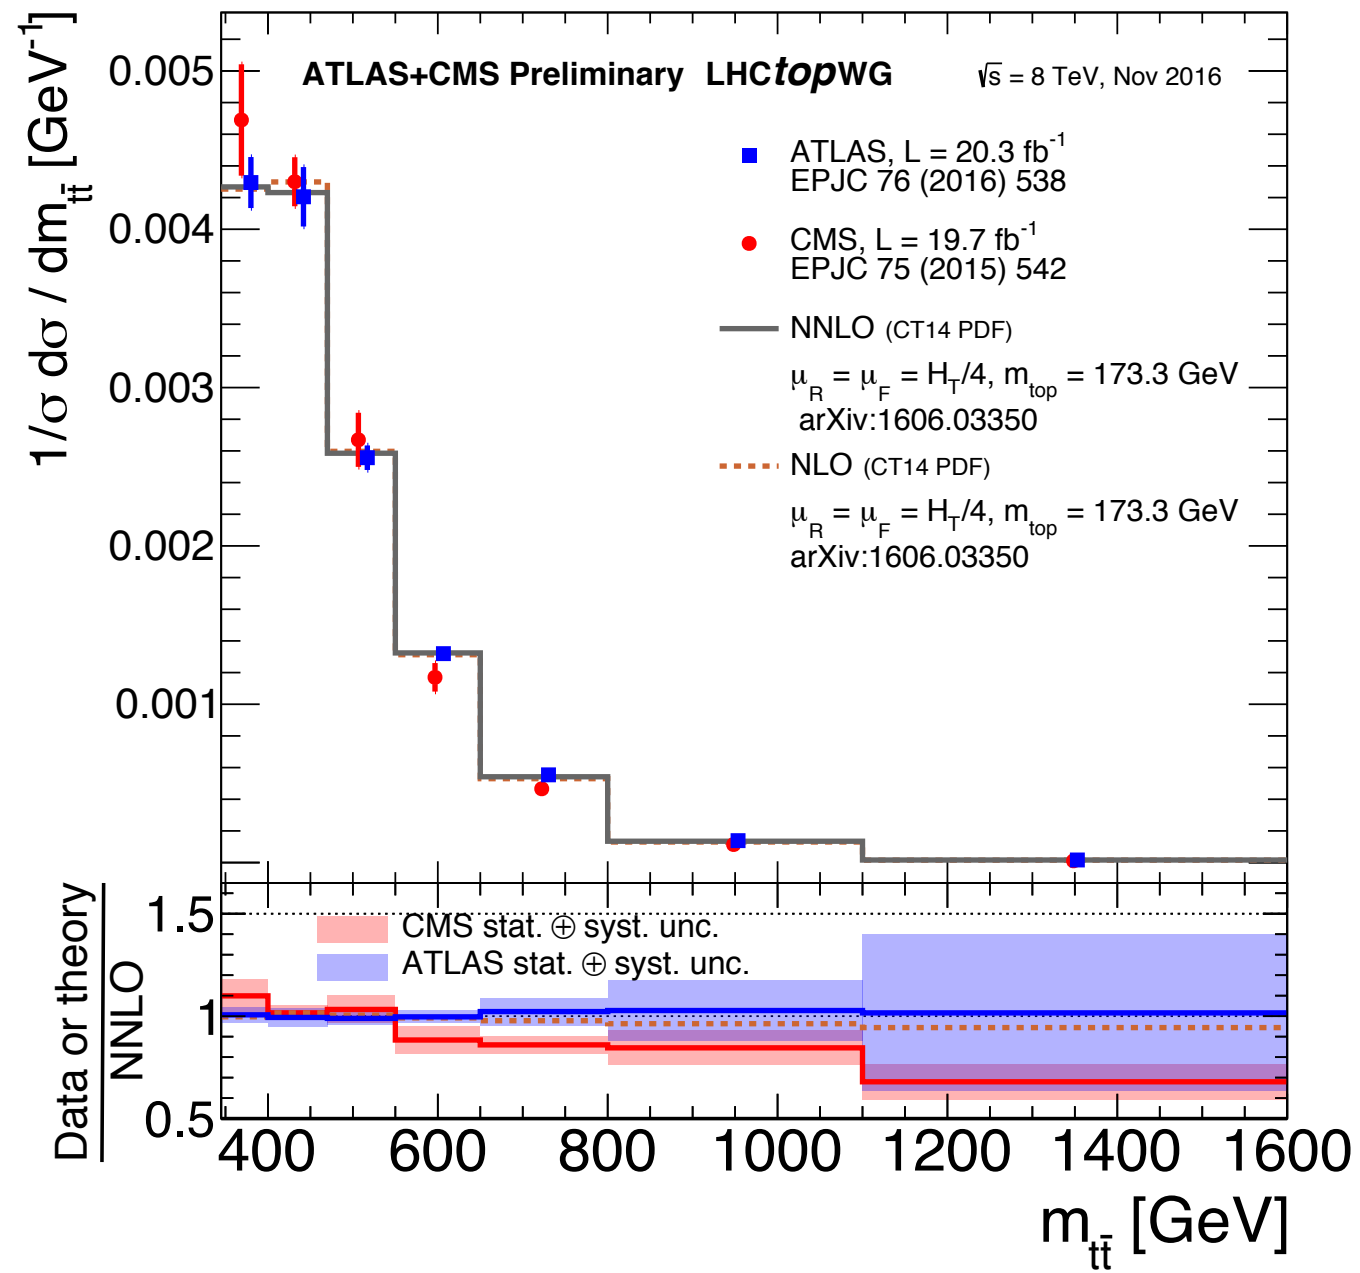

- updated wrt previous version: include the latest NNLO predictions with dynamic scales from Mitov et al. (arXiv:arXiv:1606.03350) and the updated references for the published ATLAS and CMS data

- updated wrt previous version: updated references for the published ATLAS and CMS data

- updated wrt previous version: updated references for the published ATLAS and CMS data

- new plots: comparison of ATLAS and CMS data with NNLO and NLO fixed order predictions
